Friday Evening, October 3.

THE CENTRAL STATES 40th
Anniversary Sale

OSKALOOSA, IOWA

SATURDAY, OCTOBER 4, 1969

11 BULLS

55 FEMALES

50 CLUB STEERS

There is a reason why this sale has become known as "The Sale of the Money Makers." It is because the Central States Shorthorns and Polled Shorthorns are offered in "working" condition . . . ready to go into your herd and make money. You are not paying for fancy dress but for bulls and females in strong breeding condition and of dependable bloodlines. Be sure to attend this sale.

GENERAL INFORMATION

TIME—The sale will be held Saturday, October 4th. The show will begin at 8:30 a.m. C.D.T. The sale will get underway at 12:00 noon beginning with club steers and heifers.

LOCATION—Southern Iowa Fairgrounds, northwest section of Oskaloosa, close to primary road 92 and 163.

TERMS—Terms of this sale are cash unless other arrangements have been made with the consignor from whom you purchase and the sale manager is notified.

GUARANTEE—All cattle are sold subject to a 60-day re-test for tuberculosis if kept isolated, unless going into a Federal Accredited herd. Health certificates will be furnished to enable them to be shipped into other states. All cattle have been tested for tuberculosis unless they come from an accredited herd. The cattle have been tested for Bangs within 30 days or have been calfhood vaccinated unless otherwise stated.

Bulls are guaranteed breeders if properly cared for, not allowed to run with the herd, and not used before 14 months of age. If a bull fails to breed, he may be returned to the seller, and, if after a test in the seller's herd he still fails to breed, he will be replaced or the purchase money will be refunded. All cows with calves at foot are considered breeders and no further guarantee is made with respect to them. All other cows and all heifers over 14 months old at the time of the sale are guaranteed to be breeders. Heifers should not be served by old or heavy bulls. The buyer must give the seller notice within 90 days in case of a non-breeder. In the case of young bulls this means within 90 days after they become 14 months of age. All animals must be in as good condition as when purchased to be eligible for adjustment. Animals returned to sellers because they do not comply with guarantee will be at buyer's cost of transportation.

LIABILITY—Each transaction in this sale will constitute a contract between the buyer and seller of each lot. The auctioneer, ringmen, or sale manager have been employed by the consignors for specific tasks not connected with the handling of the cattle or the condition of the premises and they will accept no liability, legal or otherwise, for the buying contract or for any accident. Neither can the seller accept any liability for injuries that may occur. All persons attend this sale at their own risk.

LUNCH—Lunch will be served on the grounds by the ladies of the Central Reform Church.

AUCTIONEER—Tom Sherlock.

SALE MANAGER—Bill Stunkel, 1228 N. Nye Ave., Fremont, Nebraska.

RINGMEN—Arch Stone, Wallace's Farmer; Wayne Farnum, Victor, Iowa; Adrian Meierotto, West Point, Iowa; Gene Fitzgerald, The Drover's Journal.

OUR 40th ANNIVERSARY SALE!

Anniversaries are important milestones. In the case of the Central States Shorthorn and Polled Shorthorn Sale, it signifies another year in the happy "marriage" between Oskaloosa buyers and sellers.

Great credit goes to the late C. E. Stewart and others who conceived and supported the idea of this sale. It has become one of the breed's most important district sales. This just didn't happen. Good cattle and good folks have made it so.

Just think of some of the fine gentlemen who have offered their cattle here for public appraisal . . . those no longer with us like Gilbert Kardel, C. E. Pierce, A. P. Lyon, C. E. Stewart and Tom Bray . . . and those whose names appear in this catalog as consignors. Each and everyone has made, and is making, a contribution to this sale through the improving blood he so zealously perfected.

From the first sale in 1949 until last spring's event, cattle have sold at Oskaloosa that have proven top investments. That is why this sale has earned the nickname . . . "THE SALE OF THE MONEY MAKERS." Study the list of consignors . . . study the wealth of breeding in the consignments . . . refer to past sale averages at Oskaloosa. You will come to the conclusion that nowhere are more good, "honest" bulls and females offered and at prices that the average farmer and breeder can afford to pay. Buy the breeding that has won at the International, National Western, Southwestern Exposition, Tennessee National and other top events in this fall's event.

Help us make this truly a happy anniversary sale. Lend your buying support on October 4th.

Bill Stunkel, Sale Manager

SHOW CLASSIFICATION

Judge: Harry Krug, Russell, Kans — Show starts at 8:30 a.m.

BULLS

CLASS I—Bulls calved before 1968
Lots 1, 2, 8, 10 and 11

CLASS II—Bulls calved Jan. 1 to June 30, 1968
Lots 3, 4, 5, 6, and 7

CLASS III—Bulls calved after July 1, 1968
Lot 9

Champion

Reserve Champion.....

FEMALES

CLASS IV—Females calved before 1963
Lots 12, 13, 14, 15, 27A, 28 and 30

CLASS V—Females calved 1963 and 1964
Lots 16, 17, 18, 19, 20, 21, 29, 31, 32, 33 and 34

CLASS VI—Females calved 1965 and 1966
Lots 22, 23, 35, 36 and 37

CLASS VII—Females calved during 1967
Lots 24, 25, 26, 38, 39, 40 and 41

CLASS VIII—Females calved Jan. 1 to April 30, 1968
Lots 42, 43, 44, 45, 46, 47 and 48

CLASS IX—Females calved May 1 to Dec. 31, 1968
Lots 49, 50, 51 and 27B

CLASS X—Females calved Jan. 1 to Feb. 28, 1969
Lots 52, 53, 54, 55, 56, 57 and 58

CLASS XI—Females calved after March 1, 1969
Lots 59, 60, 61, 62, 63, 64, 65 and 66

Champion

Reserve Champion.....

CLASS XII—Best Pair, Bull and Female, owned by consignor

The C. E. Stewart Traveling Trophy will be awarded the exhibitor of the champion bull.

The Van Wyk Feed Center will award a trophy to the champion female.

Van's Fertilizer Co. will award a trophy for the best pair.

The Mahaska State Bank will furnish class ribbons.

Your sale manager will offer a trophy to **premier consignor** based on total cash receipts of registered and club calf consignments from one herd.

This Painting Sells!

Harry Gohner, Lacona, artist, holds his original Shorthorn painting that will be auctioned to the highest bidder at this Fall's Sale. Gohner has agreed to sell a picture at each of the Central States semi-annual sales, and we predict they will become collectors' items.

55 CLUB STEERS . . .

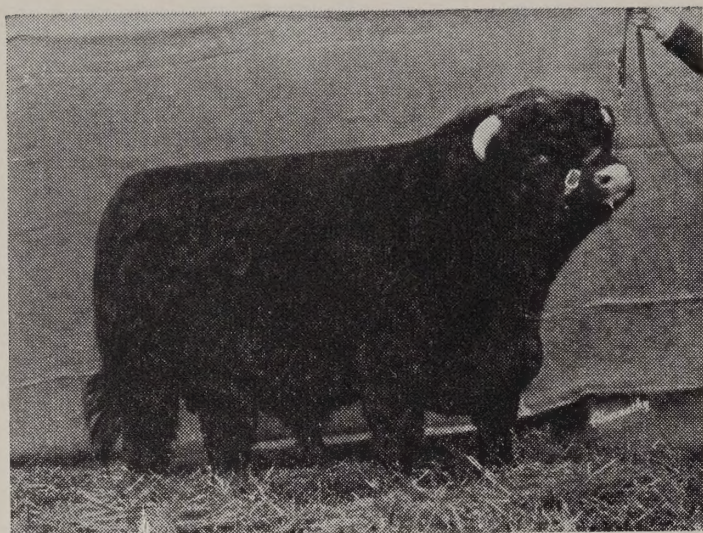

One of the best groups ever brought forward at this sale. Past sales have produced many breed and interbreed champions . . . last year's Central States Sale probably produced the largest number to date.

CLUB CALF CONSIGNORS

Leland Kellogg & Sons, Colo	3 or 5
Wayne Farnum, Victor	3 or 5
Lloyd Burr & Son, Lone Tree	2

Red, Louada Manor Farms, Ltd.
Bapton Princess Gracie
Roan, Cecil Moores

WL CLIPPER—This son of Louada Barbarian was slated to be sold in Denver. But with a large number of bull calves coming on, I have decided to add him as an attraction to this sale. He is a bull with the size so much in demand today along with having a lot of quality. His dam is as well bred a female as any in the Anderson herd.

C. A. Mallett Cattle Co., Miles City, Mont., writes: "Our cow herd contains 600 Angus and crossbred cows. Our entire sire battery is now Shorthorn bulls. We purchased Shorthorn bulls to get a better calving percentage, a heavier calf, and a better feeding animal. Shorthorn crossbreds wean about 10 per cent heavier than straightbreds of other breeds. I think the Shorthorn cross will eliminate a lot of the cancer eye and womb troubles of the Hereford."

BRAYWOOD DISPERSION

The dissolution of the Tom Bray estate forces the dispersion of the Braywood Shorthorn Herd, famed for many years throughout the Midwest. This sale will feature the two Braywood herd sires and 15 cow-calf combinations. Many of these cows will also be rebred. In some cases the older calves will sell separately from their dams. This offering is not the entire Braywood herd. Some of the yearlings and the remainder of the herd will be offered at the time of the Braywood Farm Sale. However, these cows are the ones the sale manager selected as a special attraction for this sale. We think you'll be impressed. A great opportunity to buy highly productive cows of top bloodlines.

LOT 10—BULL

Braywood Farms

J B KEYNOTE 26th 3217-968

BRAYWOOD KEY VERBENA—Close up to calving. . . could have her calf by sale day. Bred to Braywood Keynote Chief that we sold in last spring's Central States Sale for \$600.

A CHALLENGE

It has been predicted that by 1980 the U. S. population will be about 230,000,000 people consuming an average of 120 pounds of beef per person. This will require over 27 billion pounds of beef which is about 42 per cent more than was consumed in the U. S. in 1966.

Our historical dependence on western sources for feeder cattle is changing. New feedlot operations in range areas are now depleting some of the Corn Belt's dependable sources for calves. This means that Grain Belt farmers are going to have to produce more of the feeder cattle required. This March one Iowa auction market was sending two semiloads of calves each week to Colorado for feeding . . . a sign of things to come.

Then, too, 70 per cent of the material used for producing beef . . . corn stalks, wheat pasture, beet tops, etc. . . . have no higher "use-value" than beef production.

With land values increasing in range areas, the land investment to carry a cow-calf is now cheaper in many sections of the Midwest than it is in more westerly and southwesterly range areas.

This all means a great opportunity for the cow owner in Iowa and the Midwest. The market for beef is growing. We need more farmers producing calves on their marginal acres. Economists predict it will be a paying proposition.

You can buy "extra" profit cows in this sale.

THE ANDERSON CONSIGNMENT

For a number of years Bill Anderson has made it a policy to make a herd-reduction consignment to one of the area's district Shorthorn sales. This fall, The Central States Sale is again fortunate to have this strong offering. The cattle selling are always some of Bill's best. In the past buyers have come from New York, Washington, Mississippi, and other distant points to avail themselves of the high quality represented by the Anderson consignment.

If **YOU** are interested in adding some strong replacements to your herd, we suggest you attend this sale and look over the cattle consigned by Anderson and the many other reputable herds represented in this sale.

WL SUSIE VICTORIA 2nd—Each year we have inquiries for heifer calves that are the right age for 4-H work. Here is one that might suit you. Her dam was reserve champion female at the 1968 Iowa State Fair and from a family that has consistently produced our top showing and selling cattle. A good chance to start a foundation family in your herd. I can recommend this one to anyone.

Mr. and Mrs. LeRoy Sexton, Iowa City	8 & 41

Maurice Korthaus, Walcott, Iowa, holds his home-raised heifer that was champion at the 1969 Mississippi Valley Fair, Davenport, Iowa. Maurice was named the grand champion beef heifer showman. The Korthaus family are selling four heifers in this sale.

THINK "CENTS-ABLY" ABOUT SIZE

Anyone who has attended a major show this summer knows full well that judges are picking them bigger, longer and trimmer. This is true in all breeds.

This trend has confused a lot of breeders and buyers. Should we sell and buy only the biggest bulls and females? NO!

Every cattleman knows full well that often his best and most profitable cow is his hardest looker and maybe even the smallest. So size doesn't necessarily measure a cow's profit potential.

A test at Texas A & M University, McGregor, Texas, is underway on cow size. A. A. Melton, animal husbandman in charge of the test, says preliminary results show no positive relationship between size of the cow and the gain of the calf. He said milk yield of the dam seems to have much more effect on performance of the calf than size of the cow.

Surprisingly, and contrary to some other reports, smaller cows often gave as much, or more, milk than large cows.

(Continued on Next Page)

In the test, cows were divided into groups according to size. In one group, Melton found the smaller cows raised calves weaning an average of 29 pounds more than those from the larger cows . . . **and on ten pounds less feed.**

In another group, the small cows raised calves weaning 72 pounds more than the larger cows . . . **and on 237 pounds less feed.**

We don't cite these figures as a condemnation of large cows. On the contrary, we encourage the trend to larger cattle as long as they remain productive, efficient and profitable. However, don't discount some of those small cows in your herd unless your production testing program has shown them to be less profitable.

Size is not always the most "cents-able". There are many other factors influencing the profit picture. We feel that the purchase of good, average size cows of proven bloodlines ARE A SOUND INVESTMENT. We feel the retention of these cows in the breeding herd IS SOUND. We also feel that breeders need to be buying bulls that will correct herd faults. If you need more thickness, buy a bull with this trait . . . if you need more milking qualities, buy a bull from a dam known for superior milk production.

Not too long ago, "experts" stampeded the cattle industry to a type that made little sense. Just as the short-legged, fancy-headed, short-coupled cattle were once heralded as the right kind, just so the opposite type now. The new type makes more sense but even it might not be the entire answer 10 years from now.

We know of one Nebraska Sandhills rancher with a quality whiteface herd that sold them to replace with a new, big breed. He woke up to discover that he could only maintain about two-thirds as many of these big cows on the same acreage. Where his herd had been culled for many years for calving percentage, he now came up with the lowest percentage calf crop in his career. Then to top it all off, when the calves were sold they didn't weigh nearly enough more to compensate for the lower selling price per pound or the fewer calves available for sale. THIS MAN HAS THE BIGGEST COWS IN HIS AREA AND IS GOING BROKE FOR THE PRIVILEGE.

What is the answer? We advise every one to get on a performance testing program and prove to himself what are the most profitable sized cattle for his operation. Make sure the change you make is for the best. BASE YOUR CHANGE ON SOUND STATISTICS NOT A LOT OF LOOSE THEORIES AND TALK.

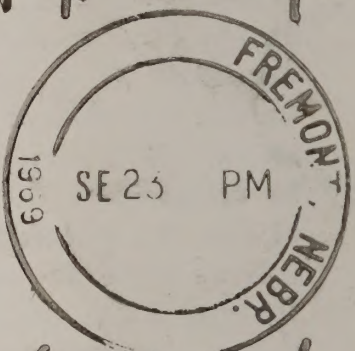

— Bill Stunkel

STANDARD GUARANTEE

OF AMERICAN SHORTHORN BREEDING ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller. Cows with calves at foot even though bred are not given any guarantee.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any other animal later substituted.
5. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such certificate is required by the seller.
6. All animals are sold to comply with the laws regulating tuberculosis and Bang's disease of the state or country into which they may be shipped.
7. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
8. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animals are bid off.
